Continuation Sheet

Narrative Description

The Valrico Fire Tower is located at 102 N Dover Road and was constructed ca. 1937 (Turner 2012). The poured concrete pier foundation supports the 90 foot-tall tower (National Geodetic Survey 2012). The tower consists of a four-legged, tapered steel skeleton with a one-room, steel skeleton cabin at the top. The cabin has a hip roof covered with sheet metal. Fenestration includes awning metal and nine-light fixed metal windows. Access to the cabin is gained through a door in the floor. It is reached by metal grated stairs divided into seven landings. A deck is attached to the cabin to the west and supports an approximately 15-foot tall antennae and a 30-ft tall radio antennae. A chain-link fence with barbed wire immediately surrounds the tower base. Parking is located to the east, north, and west of the tower; a bus stop is located to the west.

The Valrico Fire Tower was built by the Aermotor Company of Chicago and assembled on site. It was used by Florida Division of Forestry personnel to spot wildfires. More than 200 towers were erected throughout the state from the 1930s through the 1950s (FMSF). Each tower was placed within view of another. Development and modern technology eliminated the need for the towers, and the last fire spotter positions were eliminated during budget cutbacks in 2001 (White 2006). Most remaining towers are no longer maintained (FMSF). About 50 have been sold at auction, dismantled, and moved from Florida Division of Forestry property. In 2010, an estimated 110 towers were still extant (Comas 2010).

Explanation of Evaluation

The Valrico Fire Tower is an increasing rare example of a Florida fire lookout tower sited in its historic location. Development has encroached into the Valrico Fire Tower’s view shed, but forested and agricultural land still predominates to the northeast and southeast. It also has retained a high degree of its integrity. It was last recorded in 1998, when it was considered ineligible for listing in the NRHP. This came after a survey in 1991 that also found it ineligible; SHPO concurred. However, since the surveys, the state no longer regularly staffs fire towers, and many have been moved. Subsequently, SHPO has considered towers similar to the Valrico Fire Tower eligible for listing in the NRHP. Nearby examples of NRHP eligible towers in Hillsborough County include the Hamner Fire Tower (8HI6541) in Tampa and the Brown Fire Tower (8HI6561) near Wimauma (FMSF). Thus, the Valrico Fire Tower is potentially eligible for listing in the NRHP under Criterion A in the areas of conservation and community planning and development and under Criterion C in the area of engineering.

CONTINUATION SHEET

Narrative Description

The Craftsman style residence at 5703 Farkas Road was constructed ca. 1933 (Turner 2012). It was not evaluated by SHPO. The brick pier foundation supports the wood-frame walls, which are covered in weatherboard. The one-story, irregularly shaped building has cross-gable and shed roofs covered with ca. 2000 composition shingles. Fenestration includes 4/1 wood DHS and fixed glass with diamond pattern windows, and a 15-light wood front door located within the front porch. The open front porch is located along the south and west elevations and includes brick piers and tapered columns with concrete pedestals. At an unknown date, the columns likely replaced wood columns. Ornamentation includes latticework along the piers, wood braces, wood window surrounds, and wide roof overhangs. The property includes two nonhistoric outbuildings and citrus trees.

Explanation of Evaluation

8HI6552 was initially included in a 1998 survey of Hillsborough County. The recorders said it was not eligible for listing in the NRHP, neither individually nor as part of a district. It was not evaluated by SHPO. There are similar examples of the Craftsman style nearby outside the APE at 5108 Mud Lake Road and 5204 Mud Lake Road that are older and in the same condition as 8HI6552. Further, limited research revealed no significant historical associations. Therefore, 8HI6552 does not appear to be potentially eligible for listing in the NRHP, neither individually nor as part of a district.

Bibliography

Turner, Rob
An Addendum to Resource Group 8HI11335
Seaboard Railway—Welcome to Edison

Narrative Description

The CSX Railroad, recorded as Seaboard Railway—Welcome to Edison, traverses the project APE in a northwest-southeast direction approximately 1,000 feet east of St. Cloud Avenue in Valrico. The single, standard-gauge track is constructed on a stone ballast. Two crossing gates with lights, signage, and operable gates are located at both eastbound and westbound SR 60. The railroad was built ca. 1892 by the Florida Central & Peninsular Railway to reach phosphate mining areas south of Plant City in Bone Valley. The Seaboard Air Line Railway assumed control of the track in 1900 (Turner 2008). In 1967, the railroad merged with the Atlantic Coast Line Railroad to form the Seaboard Coast Line (HCPGM 1998). By 1980, the Seaboard Coast Line Industries had officially merged with the “Chessie System” railroads, creating the CSX Corporation railroad system. Segments of the railroad system within Hillsborough County, but outside of the APE, were previously recorded as part of the Meadow Pond Acres CRAS (ACI 2008), Florida Gas Transmission Company CRAS (Janus Research and R. Christopher Goodwin Associates 2008), and the Bone Valley Siding Project (Southeastern Archaeological Research 2011).

Explanation of Evaluation

The railroad is historically significant to the development of the area. In 2010, an approximately 500-foot segment of 8HI11335 was recorded as part of the Bone Valley Siding Project, and SHPO determined it to be NRHP eligible. That segment is about four miles south of the SR 60 APE. Only a short segment of the railroad is within the SR 60 APE, so there is insufficient information to determine its NRHP eligibility. Determining the eligibility of the line through Hillsborough County was beyond the scope of this project. Moreover, SR 60 project plans will have no adverse effect on the railroad’s historic integrity.

NOTE: Use this form to document districts, landscapes, building complexes and linear resources as described in the box below. Cultural resources contributing to the Resource Group should also be documented individually at the Site File. Do not use this form for National Register multiple property submissions (MPSs). National Register MPSs are treated as Site File manuscripts and are associated to the individual resources included under the MPS cover using the Site File manuscript number.

Check ONE box that best describes the Resource Group:

- Historic district (NR category “district”): buildings and NR structures only: NO archaeological sites
- Archaeological district (NR category “district”): archaeological sites only: NO buildings or NR structures
- Mixed district (NR category “district”): includes more than one type of cultural resource (example: archaeological sites and buildings)
- Building complex (NR category usually “building(s)”: multiple buildings in close spatial and functional association
- Designed historic landscape (NR category usually “district” or “site”): can include multiple resources (see National Register Bulletin #18, page 2 for more detailed definition and examples: e.g. parks, golf courses, campuses, resorts, etc.)
- Rural historic landscape (NR category usually “district” or “site”): can include multiple resources and resources not formally designed (see National Register Bulletin #30, Guidelines for Evaluating and Documenting Rural Historic Landscapes for more detailed definition and examples: e.g. farmsteads, fish camps, lumber camps, traditional ceremonial sites, etc.)
- Linear resource (NR category usually “structure”): Linear resources are a special type of rural historic landscape and can include canals, railways, roads, etc.

CONTINUATION SHEET

Narrative Description

The resource group at 5401 Schmitz Lane includes 8HI11900-8HI11904.

8HI11900, the Craftsman style residence at 5401A Schmitz Lane, was constructed ca. 1928 (Turner 2012). The concrete block pier foundation supports the wood frame walls, which are clad in wood siding. The 1.5-story, rectangular building has hip and flat roofs covered with ca. 2000 composition shingles. Fenestration includes ca. 1970 replacement 1/1 and 2/2 SHS metal windows. Ornamentation includes vents in the gable peaks. A flat-roof carport is attached to the north, and a shed roof porch is to the west. Additions were built at unknown dates at the north, south and west; a porch was added at an unknown date and later enclosed.

8HI11901, the Frame Vernacular style residence at 5401B Schmitz Lane, was constructed ca. 1924 (Turner 2012). The concrete block pier foundation supports the wood-frame walls, which are covered in wood siding. The one-story, rectangle building has a gable roof covered with a ca. 2000 replacement standing seam metal roof. Fenestration includes ca. 1955 replacement 2/2 and 1/1 SHS metal and two-light metal awning windows and a ca. 1980 wood-paneled front door. The front porch was enclosed ca. 1960, and the front porch windows now are boarded up. Ornamentation includes wood window surrounds.

8HI11902, the Frame Vernacular style residence at 5401C Schmitz Lane, was constructed ca. 1924 (Turner 2012). The pier foundation supports the wood-frame walls, which are covered in wood panels and vinyl siding. The one-story, rectangle building has a gable roof covered with ca. 2000 replacement composition shingles. Fenestration includes ca. 1955 replacement 1/1 SHS metal and two-light metal awning windows. The front porch was enclosed and screened-in ca. 1970.

8HI11903, the mobile home at 5401D Schmitz Lane, was constructed ca. 1962 (Turner 2012). The metal shell is supported by a pier foundation. The one-story, rectangular structure’s fenestration that includes 1/1 SHS metal windows—-independent, paired, and in threes—and a wood door. Ornamentation includes fixed shutters.

8HI11904, the mobile home at 5401E Schmitz Lane, was constructed ca. 1962 (Turner 2012). The metal shell is supported by a pier foundation. The one-story, rectangular structure has fenestration that includes 1/1 metal SHS windows and a wood door. Ornamentation includes fixed shutters.

There are 15 noncontributing mobile homes in the resource group.

Explanation of Evaluation

This resource group includes typical examples of the Craftsman, Frame Vernacular and mobile home style residences found throughout Florida, and limited research revealed no significant historical associations. Therefore, 8HI11880 does not appear to be potentially eligible for listing in the NRHP, neither individually nor as part of a district.

Bibliography

### Required Attachments

1. **PHOTOCOPY OF USGS 7.5’ MAP WITH DISTRICT BOUNDARY CLEARLY MARKED**
2. **LARGE SCALE STREET, PLAT OR PARCEL MAP WITH RESOURCES MAPPED & LABELED**
3. **TABULATION OF ALL INCLUDED RESOURCES** *(name, FMSF #, contributing? Y/N, resource category, street address or township-range-section if no address)*
4. **PHOTOS OF GENERAL STREETSCAPE OR VIEWS** *(Optional: aerial photos, views of typical resources)*

Photos may be archival B&W prints OR digital image files. If submitting digital image files, they must be included on disk or CD AND in hard copy format (plain paper is acceptable). Digital images must be at least 1600 x 1200 pixels, 24-bit color, jpeg or tiff.
Narrative Description

The resource group at 2801 E SR 60 includes 8HI11891 and 8HI11892 (Turner 2012).

8HI11891 is a Frame Vernacular style commercial building that was constructed ca. 1960 (Turner 2012). The concrete slab foundation supports the wood-frame walls, which are clad in wood. The one-story, rectangular building has a flat roof, which is covered in built-up materials, and a parapet roof that is covered with corrugated metal panels. Fenestration includes single light fixed wood windows and nine-light, wood-paneled paired doors. Ornamentation includes wood window surrounds.

8HI11892 is a Frame Vernacular style residential building that was constructed ca. 1949 (Turner 2012). The pier foundation supports the wood-frame walls, which are clad in wood siding. The one-story, irregularly shaped building has gable and flat roofs clad in ca. 1960 composition shingles. Fenestration includes metal single light fixed and 1/1 single-hung sash (SHS) metal windows. The main entrance is located within a covered entry with cutout. Ornamentation includes wood window surrounds. A one-story wood panel addition with a built-up, flat roof was built at the east and south ca. 1960. Three nonhistoric metal outbuildings are located to the south.

Explanation of Evaluation

This resource group includes typical examples of the Frame Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, 8HI11881 does not appear to be potentially eligible for listing in the NRHP, neither individually nor as part of a district.

Bibliography

Turner, Rob

NOTE: Use this form to document districts, landscapes, building complexes and linear resources as described in the box below. Cultural resources contributing to the Resource Group should also be documented individually at the Site File. Do not use this form for National Register multiple property submissions (MPSs). National Register MPSs are treated as Site File manuscripts and are associated to the individual resources included under the MPS cover using the Site File manuscript number.

Check ONE box that best describes the Resource Group:
- Historic district (NR category “district”): buildings and NR structures only: NO archaeological sites
- Archaeological district (NR category “district”): archaeological sites only: NO buildings or NR structures
- Mixed district (NR category “district”): includes more than one type of cultural resource (example: archaeological sites and buildings)
- Building complex (NR category usually “building(s)”: multiple buildings in close spatial and functional association
- Designed historic landscape (NR category usually “district” or “site”): can include multiple resources (see National Register Bulletin #18, page 2 for more detailed definition and examples: e.g. parks, golf courses, campuses, resorts, etc.)
- Rural historic landscape (NR category usually “district” or “site”): can include multiple resources and resources not formally designed (see National Register Bulletin #30, Guidelines for Evaluating and Documenting Rural Historic Landscapes for more detailed definition and examples: e.g. farmsteads, fish camps, lumber camps, traditional ceremonial sites, etc.)
- Linear resource (NR category usually “structure”): Linear resources are a special type of rural historic landscape and can include canals, railways, roads, etc.

CONTINUATION SHEET

Narrative Description

The resource group at 2811 E SR 60 includes 8HI11893 and 8HI11894 (Turner 2012).

8HI11893 is a Masonry Vernacular style motel at 2811 E SR 60. It was constructed ca. 1946 (Turner 2012). A concrete slab foundation supports the concrete block walls, which are clad in stucco and masonry veneer. The one-story, irregularly shaped building has a gable on hip roof covered with ca. 1970 composition roll. Fenestration includes 1/1 SHS metal windows. A porch covers the multiple entrances and extends the length of the west and south facades.

8HI11894 is a Masonry Vernacular style motel. It was constructed ca. 1962 (Turner 2012). The concrete slab foundation supports the concrete block walls, which are clad in stucco and masonry veneer. The one-story, irregularly shaped building has a cross gable roof covered with ca. 1970 composition roll. Fenestration includes four-light awning metal windows. Ornamentation includes iron porch supports. A prominent masonry veneer-clad chimney is located at the south end.

Explanation of Evaluation

This resource group includes typical examples of the Masonry Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, 8HI11882 does not appear to be potentially eligible for listing in the NRHP, neither individually nor as part of a district.

CONTINUATION SHEET

Narrative Description

The resource group at 6023 E SR 60 is made up of two commercial Masonry Vernacular buildings that were constructed in 1963 and includes 8HI11905 and 8HI11906 (Turner 2012).

8HI11905 is an auto dealership and has a concrete slab foundation that supports concrete block walls. The one-story, rectangular building has a flat roof covered with built-up materials. Fenestration includes single-light, fixed; four-light fixed; and 1/1 awning metal windows and a wood-paneled door with one light. A large roof overhang with a parapet extends to the north and is supported by metal columns. Ornamentation includes braces.

8HI11906 is an auto repair shop and has a concrete slab foundation that supports the concrete block walls. The one-story, rectangular building has a shed roof covered with sheet metal. Fenestration includes two garage doors. A ca. 2000 metal carport extends to the west and is supported by metal columns.

Explanation of Evaluation

This resource group includes typical examples of the Masonry Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, 8HI11883 does not appear to be potentially eligible for listing in the NRHP, neither individually nor as part of a district.

(address / phone / fax / e-mail)

Required Attachments

1. PHOTOCOPY OF USGS 7.5' MAP WITH DISTRICT BOUNDARY CLEARLY MARKED
2. LARGE SCALE STREET, PLAT OR PARCEL MAP WITH RESOURCES MAPPED & LABELED
3. TABULATION OF ALL INCLUDED RESOURCES (name, FMSF #, contributing? Y/N, resource category, street address or township-range-section if no address)
4. PHOTOS OF GENERAL STREETSCAPE OR VIEWS (Optional: aerial photos, views of typical resources)

Photos may be archival B&W prints OR digital image files. If submitting digital image files, they must be included on disk or CD AND in hard copy format (plain paper is acceptable). Digital images must be at least 1600 x 1200 pixels, 24-bit color, jpeg or tiff.
Narrative Description

The resource group at 3802 E SR 60 was constructed in 1951 and includes 8HI11930, 8HI11931, and 8HI11973 (Turner 2012).

8HI11930 at 3802A E SR 60 is a Masonry Vernacular style quadplex residential building. The continuous foundation supports the concrete block walls. The one-story, irregularly shaped building has a hip roof covered with ca. 2000 replacement 5-V crimp sheet metal. Fenestration includes eight- and 16-light fixed metal windows. Ornamentation includes concrete window sills and faux brick shutters at doors and windows. The entrances are within the incised front porch, supported by concrete block columns. A one-story addition similar in design to the original section was added at an unknown date.

8HI11931 at 3802B E SR 60 is a Masonry Vernacular style duplex residential building. The continuous foundation supports the concrete block walls. The one-story, rectangular building has a hip roof covered with ca. 2000 replacement 5-V crimp sheet metal. Fenestration includes metal eight-light fixed and 2/2 SHS windows. Ornamentation includes concrete window sills and faux brick shutters at the doors and windows. The entrances are within the incised front porch, supported by concrete block columns.

8HI11973 at 3802C E SR 60 is a Masonry Vernacular style duplex residential building. The continuous foundation supports the concrete block walls. The one-story, rectangular building has a hip roof covered with ca. 2000 replacement 5-V crimp sheet metal. Fenestration includes metal eight-light fixed and 2/2 SHS windows. Ornamentation includes concrete window sills and faux brick shutters at the doors and windows. The entrances are within the incised front porch, supported by concrete block columns.

The resource group also includes one noncontributing mobile home.

Explanation of Evaluation

This resource group includes typical examples of the Masonry Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, 8HI11884 does not appear to be potentially eligible for listing in the NRHP, neither individually nor as part of a district.

Narrative Description

The resource group at 3202 E SR 60 includes 8HI11966 and 8HI11967. Descriptions for 8HI11966 and 8HI11967 are below.

8HI11966 is a Masonry Vernacular style residence at 3202A E SR 60 was constructed ca. 1951 (Turner 2012). The continuous foundation supports the concrete block walls, which are covered by stucco. The one-story, rectangular building has a gable roof covered with ca. 2000 composition shingles. Fenestration includes ca. 1990 one-light fixed metal and 6/6 vinyl DHS windows. The main entrance is through a ca. 1990 wood paneled door with two lights. Ornamentation includes wood window and door surrounds. A paved patio is located to the south and is lined by a low, concrete block wall. The property includes a small, nonhistoric outbuilding to the northeast, constructed of wood.

8HI11967 is a Frame Vernacular style residence at 3202B E SR 60 was constructed ca. 1960 (Turner 2012). The concrete slab foundation supports the wood-frame walls, which are covered by wood. The one-story, rectangular building has a gable roof covered with ca. 1980 5-V crimp sheet metal. Fenestration includes ca. 2000 1/1 SHS vinyl windows. The main entrance is through a ca. 1990 wood paneled door with fanlights. Ornamentation includes vents in the gable peaks.

Explanation of Evaluation

This resource group includes typical examples of the Masonry Vernacular and Frame Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, 8HI11886 does not appear to be potentially eligible for listing in the NRHP, neither individually nor as part of a district.

**CONTINUATION SHEET**

**Narrative Description**

The resource group at 3176 E SR 60 includes the Frame Vernacular buildings 8HI11968 and 8HI3879.

8HI11968 at 3176B E SR 60 is a residence that was constructed ca. 1954 (Turner 2012). The concrete slab foundation supports the wood-frame walls, which are covered by asbestos shingles with wood in the gable peaks. The one-story, rectangular building has gable and shed roofs covered with ca. 1970 composition shingles. Fenestration includes paired jalousie and 1/1 SHS metal windows. The main entrance is through a wood-paneled door with a fanlight within the screened porch. At unknown dates, the porch was added and screened-in and an addition was built to the northeast. Ornamentation includes fixed shutters and vents in the gable.

8HI3879 at 3176A E SR 60 is a commercial building that was constructed ca. 1950 (Turner 2012). It is only partially visible from the right of way. The wood-frame walls are covered by clapboard siding. The one-story, irregularly shaped building has gable and shed roofs covered with 3-V crimp metal. Fenestration includes 8/8 wood casement windows. Ornamentation includes exposed rafter tails. A shed roof carport is located to the west. It was initially included in a 1991 survey. The recorder said it was not eligible for listing in the NRHP, neither individually nor as part of a district, and SHPO agreed.

**Explanation of Evaluation**

This resource group includes typical examples of the Frame Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, 8HI11886 does not appear to be potentially eligible for listing in the NRHP, neither individually nor as part of a district.

Narrative Description

The resource group at 102 Sharewood Drive includes 8HI11969 and 8HI3878.

8HI11969 at 102B Sharewood Drive is a mobile home that was constructed ca. 1956 (Turner 2012). The metal shell is supported by a pier foundation. The one-story, rectangular building has fenestration that includes a band of fixed metal windows at the north end. Ornamentation includes metal hoods.

8HI3878 at 102A Sharewood Drive is a Frame Vernacular style residence that was constructed ca. 1951 (Turner 2012). It originated as a barn. The concrete slab foundations supports the wood-frame walls, which are covered by vinyl siding. The one-story, rectangular building has gable and shed roofs covered with ca. 1970 composition shingles. Fenestration includes paired three- and four-light metal awning windows. Two large wood sliding barn doors at the south facade have been sealed, and wood door with a rectangular light has been built within one of the doors. A second door has been added to the south facade. Ornamentation includes metal hoods.

Explanation of Evaluation

This resource group includes typical examples of a mobile home and the Frame Vernacular style residence found throughout Florida, and limited research revealed no significant historical associations. Therefore, 8HI11887 does not appear to be potentially eligible for listing in the NRHP, neither individually nor as part of a district.

### REQUIRED ATTACHMENTS

1. **PHOTOCOPY OF USGS 7.5' MAP WITH DISTRICT BOUNDARY CLEARLY MARKED**
2. **LARGE SCALE STREET, PLAT OR PARCEL MAP WITH RESOURCES MAPPED & LABELED**
3. **TABULATION OF ALL INCLUDED RESOURCES** (name, FMSF #, contributing? Y/N, resource category, street address or township-range-section if no address)
4. **PHOTOS OF GENERAL STREETSCEAPE OR VIEWS** (Optional: aerial photos, views of typical resources)

Photos may be archival B&W prints OR digital image files. If submitting digital image files, they must be included on disk or CD AND in hard copy format (plain paper is acceptable). Digital images must be at least 1600 x 1200 pixels, 24-bit color, jpeg or tiff.
CONTINUATION SHEET

Narrative Description

A segment of the CSX Railroad traverses the project APE in a north-south direction approximately 0.75 miles east of SR 39 near Hopewell. Two crossing gates with lights, signage, and operable gates are located at both eastbound and westbound SR 60. The single, standard-gauge track constructed on a stone ballast originated in 1898 as a logging railroad built by the Warnell Lumber and Veneer Company. The Plant City, Arcadia & Gulf Railroad purchased the route, and it was acquired and expanded in 1905 by the Seaboard Air Line Railway (Turner 2003). In 1967, the railroad merged with the Atlantic Coast Line Railroad to form the Seaboard Coast Line (HCPGM 1998). By 1980, the Seaboard Coast Line Industries had officially merged with the “Chessie System” railroads, creating the CSX Corporation railroad system.

Explanation of Evaluation

As contained within the APE, this short segment of 8HI11888 is not representative of the system as a whole, and there is insufficient information to determine its eligibility for listing in the NRHP. Evaluation of the entire line within Hillsborough County was outside the scope of this project.

**OPINION OF RESOURCE SIGNIFICANCE**

- Appears to meet the criteria for National Register listing individually?
  - [ ] yes
  - [ ] no
  - [ ] insufficient information

- Appears to meet the criteria for National Register listing as part of a district?
  - [ ] yes
  - [ ] no
  - [ ] insufficient information

**Explanation of Evaluation (required, whether significant or not; use separate sheet if needed)**

This building is a typical example of the Frame Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, it does not appear to be potentially eligible for listing in the NRHP.

**Area(s) of Historical Significance** (see National Register Bulletin 15, p. 8 for categories: e.g. "architecture", "ethnic heritage", "community planning & development", etc.)

OPINION OF RESOURCE SIGNIFICANCE

Appears to meet the criteria for National Register listing individually? ☐ yes  ☐ no  ☐ insufficient information

Appears to meet the criteria for National Register listing as part of a district? ☐ yes  ☐ no  ☐ insufficient information

Explanation of Evaluation (required, whether significant or not; use separate sheet if needed) This building is a typical example of the Frame Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, it does not appear to be potentially eligible for listing in the NRHP.

Area(s) of Historical Significance (see National Register Bulletin 15, p. 8 for categories: e.g. "architecture", "ethnic heritage", "community planning & development", etc.)

**OPINION OF RESOURCE SIGNIFICANCE**

Appears to meet the criteria for National Register listing individually? ☐ yes ☒ no ☐ insufficient information

Appears to meet the criteria for National Register listing as part of a district? ☒ yes ☐ no ☐ insufficient information

Explanation of Evaluation (required, whether significant or not; use separate sheet if needed)

This building is a typical example of the Masonry Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, it does not appear to be potentially eligible for listing in the NRHP.

### OPINION OF RESOURCE SIGNIFICANCE

- Appears to meet the criteria for National Register listing individually? ☐ yes ☒ no ☐ insufficient information
- Appears to meet the criteria for National Register listing as part of a district? ☐ yes ☒ no ☐ insufficient information

**Explanation of Evaluation (required, whether significant or not, use separate sheet if needed)**

This building is a typical example of the Frame Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, it does not appear to be potentially eligible for listing in the NRHP.

OPINION OF RESOURCE SIGNIFICANCE

Appears to meet the criteria for National Register listing individually? □ yes □ no □ insufficient information
Appears to meet the criteria for National Register listing as part of a district? □ yes □ no □ insufficient information
Explanation of Evaluation (required, whether significant or not; use separate sheet if needed) This building is a typical example of the Masonry Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, it does not appear to be potentially eligible for listing in the NRHP.

Area(s) of Historical Significance (see National Register Bulletin 15, p. 8 for categories: e.g. "architecture", "ethnic heritage", "community planning & development", etc.)

### OPINION OF RESOURCE SIGNIFICANCE

Appears to meet the criteria for National Register listing individually? □ yes □ no □ insufficient information

Appears to meet the criteria for National Register listing as part of a district? □ yes □ no □ insufficient information

Explanation of Evaluation (required, whether significant or not; use separate sheet if needed)

This building is a typical example of the Masonry Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, it does not appear to be potentially eligible for listing in the NRHP.

Area(s) of Historical Significance (see National Register Bulletin 15, p. 8 for categories: e.g. “architecture”, “ethnic heritage”, “community planning & development”, etc.)

**Explanation of Evaluation (required, whether significant or not; use separate sheet if needed)**

This building is a typical example of the Masonry Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, it does not appear to be potentially eligible for listing in the NRHP.

**Area(s) of Historical Significance** (see National Register Bulletin 15, p. 8 for categories: e.g. “architecture”, “ethnic heritage”, “community planning & development”, etc.)

OPINION OF RESOURCE SIGNIFICANCE

Appears to meet the criteria for National Register listing individually? □ yes □ no □ insufficient information
Appears to meet the criteria for National Register listing as part of a district? □ yes □ no □ insufficient information
Explanation of Evaluation (required, whether significant or not; use separate sheet if needed) This building is a typical example of the Frame Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, it does not appear to be potentially eligible for listing in the NRHP.

Area(s) of Historical Significance (see National Register Bulletin 15, p. 8 for categories: e.g. “architecture”, “ethnic heritage”, “community planning & development”, etc.)

**Explanation of Evaluation** (required, whether significant or not; use separate sheet if needed)

This building lacks architectural significance, and alterations have compromised its integrity. Also, limited research revealed no significant historical associations. Therefore, it does not appear to be potentially eligible for listing in the NRHP.

OPINION OF RESOURCE SIGNIFICANCE

Appears to meet the criteria for National Register listing individually? ☐ yes ☐ no ☐ insufficient information
Appears to meet the criteria for National Register listing as part of a district? ☐ yes ☐ no ☐ insufficient information

Explanation of Evaluation (required, whether significant or not; use separate sheet if needed)

This building is a typical example of the Frame Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, it does not appear to be potentially eligible for listing in the NRHP.

Area(s) of Historical Significance (see National Register Bulletin 15, p. 8 for categories: e.g. "architecture", "ethnic heritage", "community planning & development", etc.)

NARRATIVE DESCRIPTION OF RESOURCE

Archaeological Remains

RESEARCH METHODS (check all that apply)

- [x] FMSF record search (sites/surveys)
- [ ] FL State Archives/photo collection
- [x] property appraiser / tax records
- [x] cultural resource survey (CRAS)
- [ ] other methods (describe)

Bibliographic References (give FMSF manuscript # if relevant, use continuation sheet if needed)

**OPINION OF RESOURCE SIGNIFICANCE**

Appears to meet the criteria for National Register listing individually? Yes [x] No [ ] Insufficient information

Appears to meet the criteria for National Register listing as part of a district? Yes [x] No [ ] Insufficient information

Explanation of Evaluation (required, whether significant or not; use separate sheet if needed) This building is a typical example of the Frame Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, it does not appear to be potentially eligible for listing in the NRHP.

OPINION OF RESOURCE SIGNIFICANCE

Appears to meet the criteria for National Register listing individually? [ ] yes [ ] no [ ] insufficient information

Appears to meet the criteria for National Register listing as part of a district? [ ] yes [ ] no [ ] insufficient information

Explanation of Evaluation (required, whether significant or not; use separate sheet if needed)

This building is a typical example of the Frame Vernacular style found throughout Florida, and limited research revealed no significant historical associations. Therefore, it does not appear to be potentially eligible for listing in the NRHP.

If submitting an image file, it must be included on disk or CD AND in hard copy format (plain paper is acceptable). Digital image must be at least 1600 x 1200 pixels, 24-bit color, jpeg or tiff.
NOTE: Use this form to document districts, landscapes, building complexes and linear resources as described in the box below. Cultural resources contributing to the Resource Group should also be documented individually at the Site File. Do not use this form for National Register multiple property submissions (MPSs). National Register MPSs are treated as Site File manuscripts and are associated to the individual resources included under the MPS cover using the Site File manuscript number.

Check ONE box that best describes the Resource Group:

☐ Historic district (NR category "district"): buildings and NR structures only: NO archaeological sites
☐ Archaeological district (NR category "district"): archaeological sites only: NO buildings or NR structures
☐ Mixed district (NR category "district"): includes more than one type of cultural resource (example: archaeological sites and buildings)
☐ Building complex (NR category usually "building(s)"): multiple buildings in close spatial and functional association
☐ Designed historic landscape (NR category usually "district" or "site"): can include multiple resources (see National Register Bulletin #18, page 2 for more detailed definition and examples: e.g. parks, golf courses, campuses, resorts, etc.)
☐ Rural historic landscape (NR category usually "district" or "site"): can include multiple resources and resources not formally designed (see National Register Bulletin #30, Guidelines for Evaluating and Documenting Rural Historic Landscapes for more detailed definition and examples: e.g. farmsteads, fish camps, lumber camps, traditional ceremonial sites, etc.)
☒ Linear resource (NR category usually "structure"): Linear resources are a special type of rural historic landscape and can include canals, railways, roads, etc.

Narrative Description

SR 60 from Valrico Road to County Line Road is a 12.28 mile long arterial road in east-central Hillsborough County. It is a four-lane divided highway, with two lanes in each direction separated by a grass median. SR 60 is suburban from Valrico Road to Dover Road. It is predominately rural from Dover Road to County Line Road with groves, fields, and forested land intermixed with farmstands, residences, churches, and commercial buildings. The densest development from Dover Road to County Line Road is within the communities of Turkey Creek, Bealsville, and Hopewell. There are intermittent sidewalks on one or both sides of SR 60 between Valrico Road and Dover Road. Sidewalks are on the south side of SR 60 from Turkey Creek Road to County Line Road. Utility lines, swales, and culverts are present throughout the entire corridor. Two CSX Railroad tracks cross SR 60 (8HI11335 and 8HI11888).

SR 60 is first evident on a 1927 county map (Hillsborough County Engineering Department 1927). It is labeled as SR 79 on a 1936 Florida State Road Department map. At the time, the route followed its current course east from Valrico Road until it reached SR 39 (then known as SR 315). The route then went south on SR 315 for about one-half mile to what is today known as Old Hopewell Road. SR 79 then extended eastward again through Hopewell Station to County Line Road. Sometime from 1938 to 1948, the northwest/southeast trending section of SR 60 near Hopewell was constructed, eliminating the need to travel south on SR 39. In the 1940s, extensive phosphate mining operations began along the south side of SR 60 while most of the stretch remained citrus groves, strawberry fields, and cattle pastures (PALMM 1948). By 1948, SR 60 was a two-lane paved road, and in 1962 it was widened to its current four lanes (PALMM 1948 and 1968; NBI 2012). Development along the segment from Valrico Road to Dover Road began in the 1980s (TBHC 2003).

Explanation of Evaluation

SR 60 is of a common design and construction for the state and is not associated with significant historical events or people. Moreover, the historic setting of SR 60 between Valrico Road and Dover Road has been affected by recent development. Therefore, within the APE, SR 60 does not appear to be eligible for NRHP listing, neither individually nor as part of a district.
